Sir,

With reference to your docket No H. 141 dated 18th ultimo, forwarding a copy of letter dated 30th June 1903, received from the Agents of the Mysore Spinning and manufacturing Company Ltd for information, and calling for a further report, regarding the necessity

for the services of another mechanic or fireman to keep the machinery in good order, I have the honor to state that I inspected the mills a short time ago: and found a lot of machinery to be cleaned every Day. I am of opinion that the present establishment is incapable of keeping the large amount of machinery in fair order and would recommend that a responsible fireman on a Salary of Rs 45/ per mensem be employed. I am further of opinion that no reduction can be made in the clerical establishment, as the present clerk on Rs 35 is required to look after the mills, stores &c.

I have the honor to be,

Order.

The agents of the mill having expressed a doubt as to the adequacy of the employment of a fitter in place of a foreman and a fitter to keep the mill machinery in good order, the Dy. Comr., who was asked to submit a report in the matter, recommends the employment of a foreman on pay of Rs. 45/- per mensem as he considers a lot of engineering work is done by the fitter which the Establishment sanctioned in the order above referred to cannot keep in good order. Under the circumstances the employment

1) No reply has been received

2) The details of the Establishment entertained in the mills has not been communicated to the Residency. They were merely informed that a sum of Rs. 1000/- was advanced to the Company to pay the Establishment, who were kept out of pay from January 1903, and to make the most urgent repairs required to the building - As the present question refers to the details of the Establishment, it was thought that information to the Residency was unnecessary. If otherwise ordered a draft letter to the Residency will be submitted -
